Copyright

Our client is the sole and independent creator of the artistic works in the Original Games including the game visuals and graphics including characters, animations, icons, layout, setting/surroundings, level-design, in-game objects, menus, and menu layout. Our client independently created and/or selected the graphics, frames, movements, textures, shadows and all elements of the game seen on screen. Additionally, he conceived the game “plot” and devised the gameplay including the creation of in-game goals and strategy options and conflicts (in-game problems or obstacles). The Original Games are therefore the original and creative expressive work of our client and therefore amount to copyrightable subject matter.

Our client owns all rights and privileges associated with his protected works. In particular, our client holds copyright registrations from the United States Registrar of Copyrights in respect of the Original Games as follows:

Infringing Games on Roblox

Our client has identified a number of games currently active on the Roblox platform which infringe his intellectual property rights in the Original Games as set out above (**the “Infringing Games”**).

At **Annex 1** we have set out a list of games currently active on the Roblox platform which infringe our client’s copyright in Weight Lifting Simulator 2, Weight Lifting Simulator 3 and Muscle Legends. Links to the original games are provided above.

At **Annex 2** we have set out a list of games currently active on the Roblox platform which infringe our client's copyright in his game, Legends of Speed. A link to the Original Game is provided above.

At **Annex 3** we have set out a list of games currently active on the Roblox platform which infringe our client's copyright in his game, Ninja Legends. A link to the Original Game is provided above.

Copyright Infringement

Each of the Infringing Games listed at Annexes 1-3 infringe our client's copyright arising from the Original Games insofar as those games copy (without our client's consent) protected and distinctive constituents of our client's video games, including artwork, design aesthetic, layouts, icons, level designs, user interfaces and selection and coordination of game elements, colour and shapes. It is well established that copyright protects such expression in video games. Such copying was not permitted by our client.

The Infringing Games listed at 3 and 4 of Annex 1 are also blatantly using our client's figurative "Weight Lifting Simulator" mark to promote the infringing game without our client's consent. Such use is also an infringement of our client's copyright subsisting in the mark.

The Infringing Games listed at 5-9, 11-17, 19 and 21 of Annex 1 are using our client's figurative "Muscle Legends" mark to promote the infringing game without our client's consent. Such use is also an infringement of our client's copyright subsisting in the mark.

The Infringing Games listed at Annex 2 are using our client's figurative "Legends of Speed" mark to promote the infringing game without our client's consent. Such use is also an infringement of our client's copyright subsisting in the mark.

The Infringing Games listed at Annex 3 are using our client's figurative "Ninja Legends" mark to promote the infringing game without our client's consent. Such use is also an infringement of our client's copyright subsisting in the mark.

The use of our client's marks as set out above was not authorised by our client.

Action Required

The Infringing Games are causing significant damage and loss to our client in that they are receiving significant numbers of visits (and generating significant revenues), which are being redirected from our client's games.

We trust that, in accordance with Section 512 of the DMCA and Section 6D(i) of the Roblox User Terms, the Infringing Games will be removed from the Roblox platform immediately.

We enclose a signed declaration at **Annex 6** confirming that our client is the copyright owner and that the use of our client's copyright for the above game has not been authorized by our client.

We trust that the enclosed information is sufficient to enable you to take the appropriate remedial action sought by our client, however should you have any further queries, please do not hesitate to contact us using the contact details provided below.
